FLO 4293 WALL SCONCE

Fire Farm Custom Lighting

PRESS RELEASE

FOR IMMEDIATE RELEASE

PRODUCT DESCRIPTION

FLO is a member of the Adam Jackson Pollock signature limited production series. The Flo Sconce exploits a wonderful visual illusion of perforated metals. When the two layers of the Flo interact with each other they create dynamic, moving patterns. The entire sconce seems to shimmer as you move around it. The patterns sometimes take on the shape of a DNA helix rotating in space within the sconce relative to your motion. In the right conditions you also get wonderful dappled light patterns on the wall above below, and in the room around it.

CONSTRUCTION & FINISHES

- Perforated metal
- Gloss Black finish shown (stock or custom colors available)
- 24in H x 6in W x 4in Ext
