Fire
Farm
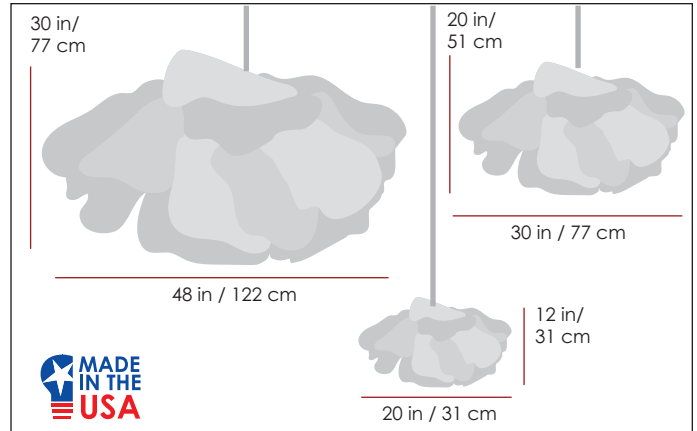

Cherry Blossom pendant is made of layers of translucent white polymer petals, each hand-shaped to create a unique organic and flowing silhouette. Inspired by a visit to Japan during the spring hanami festival, designer Adam Jackson Pollock playfully captured in permanent form the transient beauty of the blossom so it can be enjoyed indoors year-round. The pendant is available in three sizes and the suspension height is site-adjustable, allowing for arrangements in clusters in atrium spaces or over table surfaces for maximum impact.

Dimming is determined by bulb selection.
