CONSTELLATION  
ITEM 02913

Constellation is composed of perforated metal sheets folded into dramatic stellar points around a core of diamond diffuser panels. The perforated metal creates moiré effects when Constellation is viewed in the round. An especially dramatic finish for the internal diffuser is an acrylic panel covered with a dichroic film which shows different colors when viewed from different directions similar to oil on water. Changing the powder coat paint and internal diffuser panel finishes dramatically affects the nature of the fixture. Selecting an all-white diffuser and paint creates a sparkling white star while black paint and a dichroic diffuser adds drama and intrigue to its environment.

Bold as a single fixture, the Constellation pendants can be especially striking in groups of varying sizes as well. Constellation comes in four sizes ranging from 40 inches to 169 inches in diameter. With its inherent scalability, Constellation is an ideal solution for private residences, or grand stages such as ballrooms and atria.

14 in/  
36 cm

40 in/102 cm

#### 40" Diameter

##### Mounting Option

Standard junction box

##### Wiring Option

Black

##### Lamping Option

LED

##### Bulb

1 x dimmable LED bulb included

##### Dimming

Determined by compatible bulb selection

##### Shade dimensions (H x W x L)

14 in x 40 in x 40 in  
(36 cm x 102 cm x 102 cm)

##### Weight

< 15 lb (7 kg)

##### Suspension Length

Adjustable 8ft cord

##### CA Title 24

Contact factory for GU24 socket availability

##### Certification

Fire Farm is a lighting design company that offers unique and innovative custom work to clients worldwide since 1991. Its founder and director, Adam Jackson Pollock, leads a team based in Elkader, Iowa, who conceive of light as a creative medium not unlike clay or paint. This approach manifests itself in Fire Farm's use of non-traditional materials and techniques not found in typical lighting applications.

In its collaborative partnerships with interior designers and architects, Fire Farm creates sophisticated bespoke designs for hospitality, restaurant and residential clients which are unobtainable from off-the-shelf, mass-produced lighting manufacturers. The results are industry-defining ideas that are sexy, dynamic, playful and dramatic – lighting as both an illusory and emotional experience.
