RIBBON  
ITEM 04033

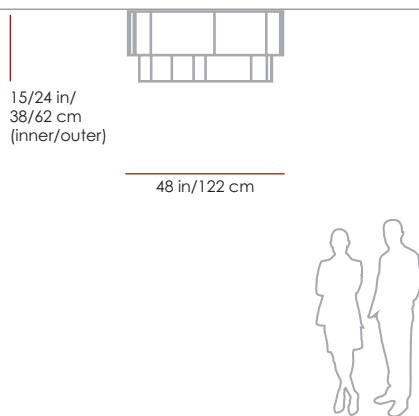

Ribbon is a multi-award winning design that has garnered honors as Best New Product at both Boutique Design New York and the International Hotel Motel and Restaurant Show, as well as being a Finalist in Interior Design's Best of Year design competition.

Ribbon's design is a completely new way to think about ballroom fixtures or the focal point to a lobby or atrium. Its undulating panels of translucent acrylic are illuminated with LED light sources which bathe a space with a gentle, even glow. Ribbon's round organic silhouette provides a balanced counterpoint to angular spaces and its design is easily scalable to fit various room configurations.

Multiple sizes of Ribbon chandeliers can be suspended concentrically and at different levels to create tiered forms with scale and drama. Each panel is hand-formed in our Elkader, Iowa, factory; no two chandeliers are exactly alike. Custom sizes, heights and materials are all available by special request.

#### 48" Diameter

##### Mounting Option

Requires support independent of junction box

##### Wiring Option

Clear wire

##### Shade Options

White translucent polymer

##### Lamping Option

70 watt integrated LED 2800k

##### Dimming

0-10vDC dimming power supply 90-305VAC input

##### Shade dimensions (H x W x L)

15/24 in (inner/outer) x 48 in x 48 in  
(38/61 cm [inner/outer] x 122 cm x 122 cm)

##### Weight

< 80 lb (36.5 kg)

##### Suspension Length

Adjustable 8ft cord

##### CA Title 24

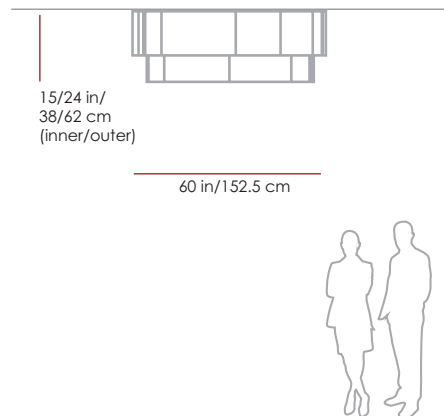

Yes

##### Certification

#### 48" Diameter Finish Options

Item Number	Finish
04033.111	 white translucent polymer
04033.115	 custom colors (contact factory for choices)

#### 60" Diameter

##### Mounting Option

Requires support independent of junction box

##### Wiring Option

Clear wire

##### Shade Options

White translucent polymer

##### Lamping Option

90 watt integrated LED 2800k

##### Dimming

0-10vDC dimming power supply 90-305VAC input

##### Shade dimensions (H x W x L)

15/24 in (inner/outer) x 60 in x 60 in  
(38/61 cm [inner/outer] x 152.5 cm x 152.5 cm)

##### Weight

< 90 lb (41 kg)

##### Suspension Length

Adjustable 8ft cord

##### CA Title 24

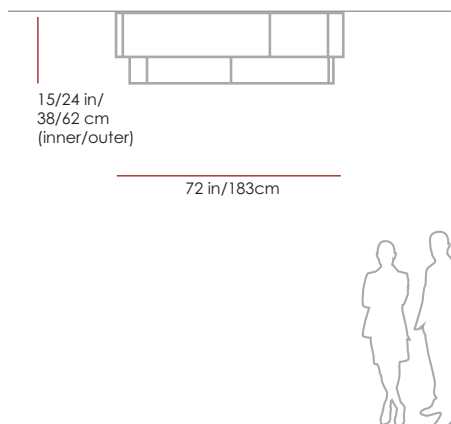

Yes

##### Certification

#### 60" Diameter Finish Options

Item Number	Finish
04033.121	 white translucent polymer
04033.125	 custom colors (contact factory for choices)

### 72" Diameter

#### Mounting Option

Requires support independent of junction box

#### Wiring Option

Clear wire

#### Shade Options

White translucent polymer

#### Lamping Option

110 watt integrated LED 2800k

#### Dimming

0-10vDC dimming power supply 90-305VAC input

#### Shade dimensions (H x W x L)

15/24 in (inner/outer) x 72 in x 72 in  
(38/61 cm [inner/outer] x 183 cm x 183 cm)

#### Weight

< 110 lb (50 kg)

#### Suspension Length

Adjustable 8ft cord

#### CA Title 24

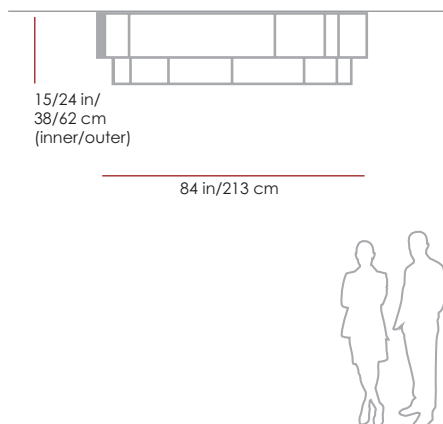

Yes

#### Certification

#### 72" Diameter Finish Options

Item Number	Finish
04033.131	 white translucent polymer
04033.135	 custom colors (contact factory for choices)

### 84" Diameter

#### Mounting Option

Requires support independent of junction box

#### Wiring Option

Clear wire

#### Shade Options

White translucent polymer

#### Lamping Option

130 watt integrated LED 2800k

#### Dimming

0-10vDC dimming power supply 90-305VAC input

#### Shade dimensions (H x W x L)

15/24 in (inner/outer) x 84 in x 84 in  
(38/61 cm [inner/outer] x 213 cm x 213 cm)

#### Weight

< 130 lb (59 kg)

#### Suspension Length

Adjustable 8ft cord

#### CA Title 24

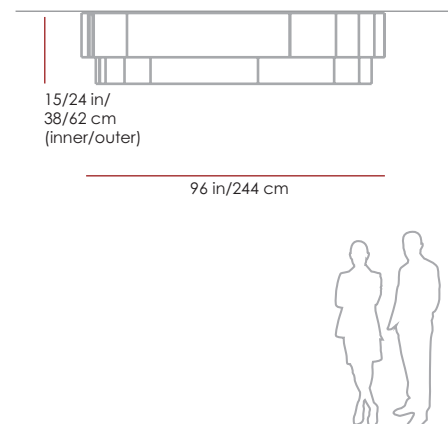

Yes

#### Certification

#### 84" Diameter Finish Options

Item Number	Finish
04033.141	 white translucent polymer
04033.145	 custom colors (contact factory for choices)

### 96" Diameter

#### Mounting Option

Requires support independent of junction box

#### Wiring Option

Clear wire

#### Shade Options

White translucent polymer

#### Lamping Option

150 watt integrated LED 2800k

#### Dimming

0-10vDC dimming power supply 90-305VAC input

#### Shade dimensions (H x W x L)

15/24 in (inner/outer) x 96 in x 96 in  
(38/61 cm [inner/outer] x 244 cm x 244 cm)

#### Weight

< 150 lb (68 kg)

#### Suspension Length

Adjustable 8ft cord

#### CA Title 24

Yes

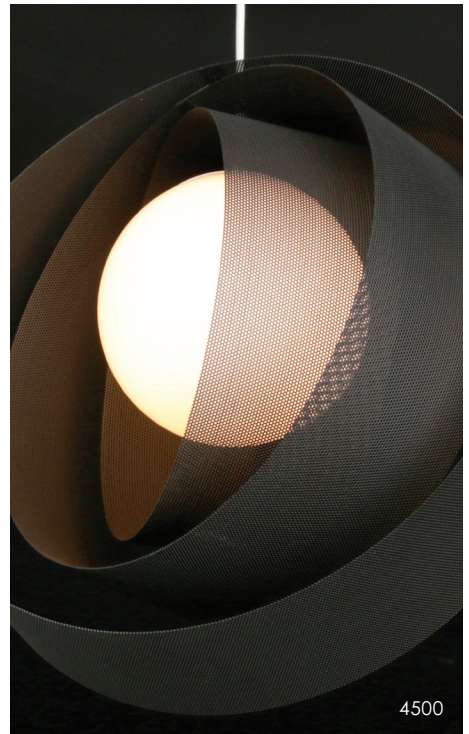

#### Certification

#### 96" Diameter Finish Options

Item Number	Finish
04033.151	 white translucent polymer
04033.155	 custom colors (contact factory for choices)

Fire Farm is a lighting design company that offers unique and innovative custom work to clients worldwide since 1991. Its founder and director, Adam Jackson Pollock, leads a team based in Elkader, Iowa, who conceive of light as a creative medium not unlike clay or paint. This approach manifests itself in Fire Farm's use of non-traditional materials and techniques not found in typical lighting applications.

In its collaborative partnerships with interior designers and architects, Fire Farm creates sophisticated bespoke designs for hospitality, restaurant and residential clients which are unobtainable from off-the-shelf, mass-produced lighting manufacturers. The results are industry-defining ideas that are sexy, dynamic, playful and dramatic – lighting as both an illusory and emotional experience.
