

SIRIS
ITEM 04371

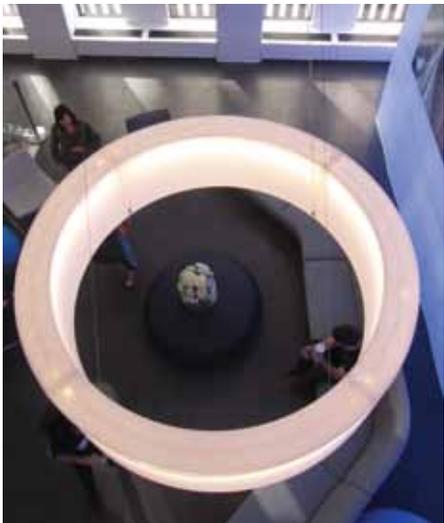

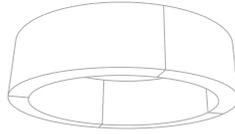

The Siris Circle will fill a room with presence and light! Siris Circle's clean modern lines and open design make it a great option to drum cylinder fixtures for lighting large spaces like lobbies or meeting rooms.

Siris Circle is an annular (ring-shaped) pendant fixture composed of translucent white polymer segments. Each arced segment measures 18 inches high by 6 inches wide. Four segments make up a 6-foot diameter pendant; six segments create the larger 10-foot pendant.

The white polymer diffuser casts an even warm white light on the surrounding space. Custom diameters and polymer diffuser materials are available on request.

18 in/
46 cm

72 in/183 cm

72" Diameter

Mounting Option

Requires support independent of junction box

Wiring Option

Clear wire

Shade Options

White translucent polymer

Lamping Option

60 watt integrated LED 2800k

Dimming

0-10VDC dimming power supply 90-305VAC input

Shade dimensions (H x W x L)

18 in x 6 in x 72 in
(46 cm x 15 cm x 183 cm)

Weight

< 175 lb (80 kg)

Suspension Length

Adjustable 10ft cord and cables
