

REED SCONCE

RELATED PRODUCTS

INCANDESCENT

FLUORESCENT

PRODUCT DESCRIPTION

The mellow feel of the natural thatch reeds is enhanced by the soft light filtered through the inside diffuser. The closer to the ceiling the fixture is hung, the more distinct are the radiant beams of light reflected through the open top reeds.

The reeds of this scone are left free at the top, and stabilized at the bottom by an inside diffuser creating a warm glow.

The shade measures 3" wide across the bottom, to 9" wide at the top.
