

LOTUS 1524 CHANDELIER

PRESS RELEASE

FOR IMMEDIATE RELEASE

PRODUCT DESCRIPTION

The Lotus fixture is a good example of our floating frame type construction where we suspend a bottom frame from a top frame and use soft fabric sides to create the volume of the fixture. The bottom pattern is a metal frame work that is powder coat painted. The side fabric diffusers are NFPA fire rated fabrics. The bottom diffuser is cream acrylic. Shown at 24"H x 144"W x 144"L.

PRODUCT APPLICATION

This design works best in large ballrooms and other commercial spaces.

CONSTRUCTION & FINISHES

- Powder-coat painted metal frame
- NFPA fire-rated fabric side diffusers, acrylic bottom diffuser
- Available in Incandescent, Fluorescent, and LED

DESIGNED BY Fire Farm

MANUFACTURED & DISTRIBUTED IN THE USA BY Fire Farm, Inc.

ABOUT THE COMPANY

Fire Farm Lighting is a custom lighting design and manufacturing company. In addition to a pre-designed product line, we provide complete creative and fabrication services to conceptualize and execute original designs. Using an ever-expanding variety of materials and processes, we make lights to define space and create exciting environments. We make light to live by.

KEY FEATURES

- Made in the USA
- Clear, concise installation instructions and efficient design translate to an easier, faster, reliable assembly
- In cluster formations, scalable to any environment
- Custom colors available
- Light-weight floating frame construction
