

BAND PENDANT
ITEM 04500

The BAND's design of three 5 inch, perforated steel wraps ringing an 8 inch acrylic globe invites you to position and reposition the pendant fixture in a multitude of configurations.

The powder-coat painted, perforated metal bands create moiré patterns which shimmer as you move around the piece. The white globe provides a beautifully even, soft light.

The BAND makes for a wonderfully dynamic fixture that you can change to keep your space looking fresh or as your illumination needs change.

Pendant
