

**THE OPEN COLLECTION**  
ITEM 04917

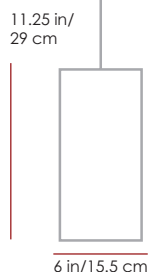

The OPEN series is inspired by the Moonflower which produces a pure white, trumpet-like flower that opens as evening falls. The flowers continue to blossom throughout the night but close as the sun rises in the morning.

Our OPEN series explores the suggestion of movement in static forms. Like a series of still images from a time-lapse nature film, the OPEN marks the passing of time in a series of fixed forms. OPEN can be purchased in triples as a chandelier, or as single pendants.

The matching ADA sconce can be installed in groups as well to create larger, intriguing visual arrangements. The sconce can be installed with the opening up, down or sideways.

**90° fixed pendant with 6 in canopy**

### 90° Shade Pendant

**Mounting Option**  
Standard junction box

**Wiring Options**
